**Subject:** Briefing Meeting on the Shasta Dam Raise Project by the Westlands Water District  
**Date:** Wednesday, March 6, 2019 6:21:37 PM

---

All,

As you may be aware, the Westlands Water District is considering participation as a non-federal cost share partner for the U.S. Bureau of Reclamation Shasta Dam Raise Project. Westlands is currently undertaking the development of an EIR to this end. In recent conversations the District has recently had with Bureau project staff, we would like the opportunity to brief CVP Power Initiative Customer Representatives on the District's role and current work it is performing for the Shasta Dam Raise, including the preferred alternative it is evaluating . Westlands would like to schedule a meeting on March 12 at 2:30 in Sacramento. The meeting would take place at 400 Capitol Mall at the offices of Kronick, Moskowitz, Tiedeman, and Girard on the 27<sup>th</sup> floor. We hope you are able to fit this into your busy schedules.

Please let me know if you are able to attend this important meeting so that arrangements can be made to inform the building security personnel for access to the meeting room.

Thank you,

Dan Pope  
Special Projects Manager
